

CHANGES FOR 2025 TIPPING

1. The manual tippers will have to use a highlighter that we will supply for their selections.
2. If you are In the tipping you have to select teams and not leave it to Graham or Neil as this is a tipping competition and not just a social night at end of the season.
3. When you place your tips in the box for each round please check you have selected all the teams because we have had occasions where members have left out some selections and that makes it difficult for us.
4. Make sure the tipping sheet is clean and if not use another piece of paper.
5. If you don't complete your tips for that round you will be given the lowest points for that round.
